

CROSSOVER GLOBAL
KINGDOM
 RETURN ON INVESTMENT

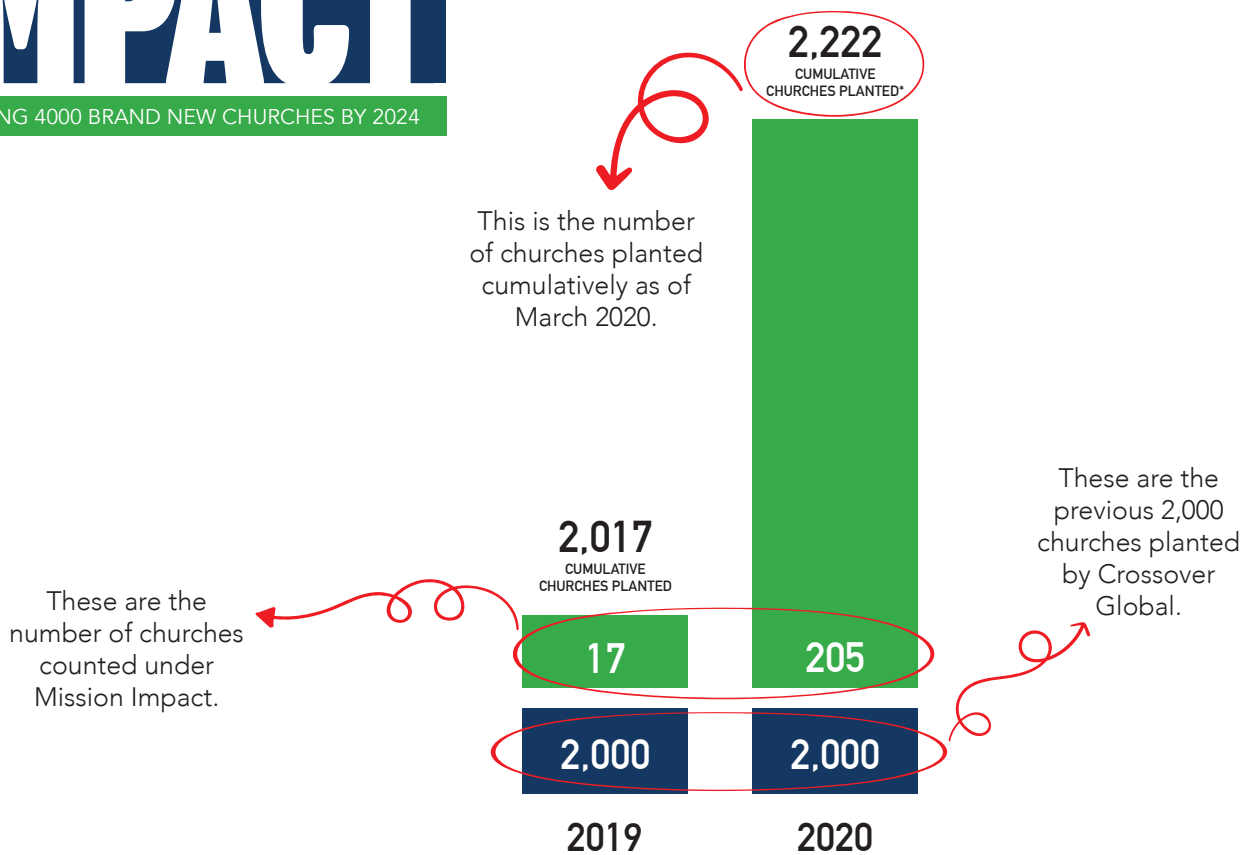

For decades Crossover Global has made it a priority to be highly transparent and accountable to our financial donors like you. This is our sixth year publishing the quarterly report called Kingdom Return on Investment, where we seek to update you on how much we have accomplished together. This report will highlight the first three months of 2020.

In 2019, we saw God use our team to plant a total of 737 churches which fulfilled our goal to plant 2,000 multiplying churches. We are now focused on our current ministry phase called Mission Impact.

Through Mission Impact, Crossover Global seeks to plant 4,000 brand new multiplying churches among unreached people groups by the end of 2024. By God’s grace and for His global glory, we are focusing our church planting efforts to plant a cumulative total of 6,000 churches by the end of 2024.

We believe an activated church is the hope of the world. Therefore, church planting becomes the most efficient and effective way to finish the task of the Great Commission. We are dreaming that these 4,000 brand new churches we seek to plant over the next five years will become local points of Gospel access where today, there is currently no access.

Thank you for being a vital part of our church planting efforts. Let’s plant 4,000 more together!

Crossover Global is currently planting churches among 100 unreached people groups (UPGs) around the world. Below is a list of the UPGs according to their major religion.

1 ATHEIST UPG

1. Han-Chinese

2 BUDDHIST UPGS
